

## FOA TRANSFORMER OIL COOLERS FROM INDUSTRIAL HEAT TRANSFER

As the original supplier of FOA coolers to many transformer manufactures, IHT is uniquely qualified to supply replacements or units for new construction. With trained professionals from original manufactures such as TRANE™, we have the original designs and drawings of thousands of installations over the past 60 years. Field replacements are simplified due to this vast library of information making field measurement unnecessary in many instances. **Industrial Heat Transfer's** FOA Coolers are available for all major transformer manufactures including:

**Westinghouse  
General Electric  
Pennsylvania Transformer  
Federal Pacific  
Wagner  
Central Transformer**

**McGraw Edison  
ABB  
Moloney Transformer  
Standard Transformer  
Allis-Chalmers  
ITE Circuit Breaker**

Transformer operators and manufactures know how critical properly designed coolers are to transformer performance. **IHT** understands this and has all the manufacturing procedures in place to insure the proper cleanliness and dehydration of this equipment. **Industrial Heat Transfer's** FOA Coolers are sealed and nitrogen charged to 10 psig on the day of shipment to assure a successful installation. With **IHT**, you should expect no surprises.

**IHT** can provide replacement heat transfer cores or complete coolers as required. We have the necessary knowledge to thermally design units to meet your specific cooling requirements. With 60 years of experience in FOA cooler design, let our specialists do the work for you. This not only can save you time but reduces the risk of lost performance.

Our equipment is made of the finest materials and manufactured to exacting standards to meet all requirements.

## **FEATURES**

**Tubes of copper for efficiency and corrosion resistance.**

**Fins of copper for corrosion resistance or of aluminum for cost savings.**

**Headers of carbon steel provide the necessary heavy duty construction.**

**Coolers designed to meet your specific cooling requirements.**

**Tested and inspected utilizing strict FOA Transformer Cooler specifications.**

**IHT** offers a wide range of heat transfer products. Our capabilities include a full line of finned tube coil products such as Air Preheat Coils, Generator Coolers and Bus Duct Coolers. For more information on our complete line of products and services available, contact your local representative or call us directly.
