

MANUFACTURES REPRESENTATIVE & DISTRIBUTOR

Advantage Engineering – Water and Glycol Chillers, including portable and central chillers, temperature control units for industrial, food and beverage applications.

AIC Advanced Industrial Components – Custom heat transfer products and heat recovery equipment for industrial and marine applications.

AKG Thermal Systems – Brazed air-cooled aluminum coolers for oil, compressed air and water glycol mixtures.

American Industrial Heat Transfer – Pre-engineered and custom shell and tube, air cooled and water-cooled heat exchangers.

Basco – Standard and ASME Code shell and tube heat exchangers.

Coilmaster – Heat exchanger coils, fluid coolers, and remote air-cooled condensers.

Diversified Manufacturing – Custom shell and tube for compressed air and process applications.

Enerquip – Stainless steel shell and tube exchangers, vapor condensers, bundles for industrial, sanitary, including food processing, CIP, pharmaceutical and biotech industries.

FIN-X – Custom process air-cooled exchangers for engines, gas compression, oil cooling, gas processing, condensing, chemical and refining.

Hexeco – Cooling coils for generator thrust and guide bearings, replacement, and new applications.

HTG Heat Transfer Group – Brazed plate exchangers for heating or cooling applications including refrigeration condensers and evaporators.

Industrial Heat Transfer – Industrial coils and other custom finned tube products including, transformer oil cooling, exhaust heat recovery and fan cooled units.

Koss Industrial – Stainless processing equipment for heating, cooling including CIP and pasteurizing applications.

Mueller – Plate and frame, Temp-plate embossed plate heat exchangers, for industrial, marine, and sanitary applications.

RSD Fiberglass Cooling Towers – Fiberglass cooling towers for process cooling applications

Super Radiator Coils – Finned tube coils for refrigerant, steam, and process water applications.

SWEP Heat Exchangers – Brazed plate heat exchangers for refrigerant, HVAC and industrial applications.

Thermal Transfer Products – Shell & tube and air-cooled heat exchangers for new applications including oil cooling, steam to water, and compressed air cooling.

Xchanger – Air to air, oil cooling & heating, gas-to-gas, biogas heat exchangers.

XLG Heat Transfer – Corrugated shell-and-tube and tube-in-tube heat exchangers for industrial, sanitary, pharmaceutical, and chemical industries.
